**More than 500 educational organizations are getting benefitted from our software and Services.**

To,

The concerned authority,

Respected Sir/Madam,

The world is moving ahead very fast and technology is accelerating this speed. If we do not adopt new technology, we may lag behind the world. The students, especially from the rural area are not introduced to new technology at the right time. That gives a sense of inferiority complex to them. I, being from the rural area, know this fact very well. So I decided to introduce technology to the rural as well as urban students through educational softwares in 2002. That was the beginning of Lsoft Technologies.

We also noticed that the time, efforts and energy spent by the teachers of the educational institutes in preparing question papers, checking the answer sheets, declaring the result etc. deviate their focus from their core activity i.e. teaching. So we started offering total solution for competitive examinations. That includes question paper and OMR answer sheets designing, printing, computerized checking the answer sheets, declaring results, performance analysis of every individual student etc. The institutes which out-source these jobs to us not only save time, efforts and energy, but also a huge cost. We offer these solutions at very low price.

Honesty and sincerity are the two virtues we have been following since the inception of Lsoft Technologies and our achievements speak for the rewards we got by these virtues.

We assure you that we will keep on doing the quality work in the future also and hope to get the same kind of support from you all.

Thanking you,

**Amol Bijwe,**

## What is OMR?

OMR stands for Optical Mark Reader or Optical Mark Recognition. OMR is used to read forms, which have variable sized filled entries. The entry can be in the form of check marks, a cross, an oval, a circle or some scribble. The OMR detects marks in the scanned images and classifies them accordingly.

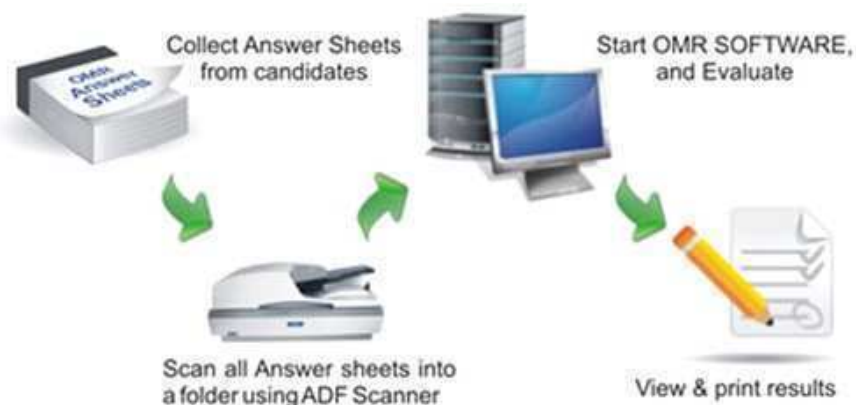

## What is OMR Sheet?

OMR sheet is a document which is printed with OMR specifications. There are some fixed rules and regulation under which OMR sheet should be designed. Our OMR sheets are designed according to the Govt. standards of different examinations.

## LSOFT OMR ANSWER SHEET CHECKER SOFTWARE

Lsoft OMR software is an Indian product developed by the team of Lsoft Technologies, Pune. With the help of Lsoft OMR, you can read scanned OMR sheets within three clicks. For the scanning of OMR sheets, you use any type of ADF scanner. Lsoft OMR gives you 100% accurate result and export data into Access, Excel and required print report formats. Lsoft OMR is used and trusted by many educational organizations in Maharashtra.

OMR Answer sheet checker is ideally suited for the evaluation of MCQ based objective answer sheets used in various competitive exams like JEE-MAINS, MH-CET/NEET, MPSC, CA-CPT etc.

Software is started and entire folder or selected sheets are subjected to reading. Any number of sheets can be put for reading at one stretch. Software reads and processes around 50 sheets per minute.

Result is displayed in a variety of formats such as: Printable Format and Excel.

### Speed and Accuracy

Besides being cost effective, the software is intelligent and 99.99% accurate. Processing of 500 sheets is achieved in about 15 minutes.\*

### Special Features

Identification of duplicate OMR sheets as well as wrongly scanned sheet.  
Ability to identify incomplete/blank/wrong data entered in OMR sheet.

### OMR Sheets Designing

You can use standard OMR Sheets provided by the vendor as per your required design.

OMR software has a very low running cost as it uses single colour or two colour printed sheets on any normal paper of 100 GSM.

### Hardware Requirements

OMR software runs on any computer running on Windows. All current day PC configurations are fine enough for this software to work.

## What is Display Report?

This is a Report provided to the institutes to display it on their Notice Board. This report contains list of all the students attended the test, according to the Roll no. with their performance report. It includes number of solved & unsolved questions, correct & incorrect answers, obtained marks & negative marks, accuracy and ranking. (This Report is mainly helpful for displaying report on the notice board)

**(Please check the sample Display Report)**

## What is Ranking & Performance Report?

This report contains detailed information of the individual student's performance. Report includes following sections.

**1. Subject Ranking:** - This section contains ranking of student in each subject, i.e. ranking of a student in Physics or in Mathematics etc, this report also contains overall ranking. (Helps the student to know his/her position compared to other students)

**2. Question and Marks Analysis:** - This section contains details regarding Questions & marks. It includes information regarding total solved questions, total unsolved questions, no. of correct answers, wrong answers, total marks obtained, accuracy & percentage (%) of a student for the test.

**3. Topers List:** - This section contains the Roll no., Names, Marks and percentages of the toppers for each subject. (So that students can compare their marks with the toppers)

**4. Performance Report:** - This section includes details regarding all the exams attended by the students and their reports i.e. if A has attended 5 exams before this exam then this report of A contains the details of those 5 exams, this details includes marks obtained in each subject, total marks for those exams (This report helps students to know their improvement)

**5. OMR Analysis Report:** - This report contains detailed information of the individual student's per question performance. This is analysis report of a student's performance in his OMR Answer Sheet. This report displays answers marked by student and correct answers. In This report you will find 'C' for correct answers, 'W' for wrong answers and 'U' for unsolved questions. This report will be provided to each & every student.

**(Please check the sample Ranking & Performance Report)**

## What is Question Analysis Report?

This Report is mainly helpful for teachers to analyze their batch/institute performance for each and every question. Under this report percentages are given for each question like percentage of students solved this question, percentage of students did not solve this question, percentage of students correctly or wrongly solved this question. It also gives information about the percentage of students wrote answer a, b, c or d. This type of analysis helps class teachers to design their further tests or change their revision pattern.

**(Please check the sample Question Analysis Report)**

## What is SMS Facility?

Under this facility, result will be sent to each student or their parents through SMS. Useful for marketing point of view.
