Subject: *Letter of appreciation regarding CET crash course.*

Dear Sir,

We are a leading coaching institute based in Satara for 11th /12th Science with special focus on long term & short term CET batches, for the students who wish to become tomorrow's Engineers & Doctors. We are always interested to invite & apply new innovative ideas for the enhancement of students' performance.

As a part of this enhancement programme, we had invited your package of Test Series with the centralized assessment mode conducted by you. The package for 10 such tests for each subject was effectively delivered to the students in our institute during the Crash Course of 2007-08.

We are much pleased to convey you that the entire content of the package & the programme of immediate centralized assessment was really good & it helped our institute. Especially the ranking of each student obtained per test in a statewide sample testing was of much help. The services provided by you were most sincere & also fast, which was the demand of the moment.

Hoping for positive associations in future.

Yours truly,

Date: 16.07.2007
